FOR IMMEDIATE RELEASE

Novotus Names Talent Technology Corporation 2007 Partner of the Year

Austin, TX and Vancouver, B.C., – December 19, 2007 - Talent Technology Corporation, an award-winning provider of recruitment technology, today announced they were named Partner of the Year by first-class talent acquisition company, Novotus.

Talent Technology provides Novotus its HireDesk on-demand recruitment solution that includes sophisticated search, tracking and relationship management capabilities. The HireDesk recruiting solution automates and streamlines Novotus' cutting-edge recruiting processes, from initial requisition to approval. It has become an integral component to support all of their processes including candidate acquisition, candidate assessment, interviewing, and candidate placement.

"Our success in talent delivery has been made possible in many ways by Talent Technology's successes in service and innovation," said Mike Mayeux, who founded Novotus to deliver customized recruitment process outsourcing and staffing services.

In addition to praising the product itself, Mayeux touted Talent Technology's exceptional customer service. "Their ability to service HireDesk is even more amazing than HireDesk itself," he said. "It is rare to meet a company that excels in so many facets of business. They have proactively pushed us to think ahead and have mapped the HireDesk recruiting product futures to our problem futures as well as anyone we have ever worked with."

In choosing a Partner of the Year, Novotus considers a company's innovation, the value it adds to Novotus' service delivery and the company's customer service. "In a market where it is increasingly more difficult to find great talent, Talent Technology and its HireDesk product have been critical in helping us to continue to achieve results for our clients that lead the industry in metrics like time to fill and cost per hire," Mayeux said.

"Novotus is an innovative recruiting firm achieving exceptional success and we are very excited to work with them to support their growth," said Jade Bouelle, President & CEO of Talent Technology. "We've worked closely with Novotus to configure our HireDesk recruiting

system to match what Novotus needed – a robust and flexible system with the ability to deliver business returns quickly. The HireDesk philosophy is to partner with our customers to achieve results and we look forward to continue to work with Novotus to evolve the recruiting tools they require now and in the future.”

About Novotus

Novotus, based in the U.S., is a modern recruitment process outsource provider that fuses together the services offered by traditional recruitment process outsourcing companies and staffing agencies. Founded and directed by professionals who sought to meet the changing needs of companies, Novotus has altered the landscape of recruitment process outsourcing. For more information, contact Jim Taylor at 817.845.1414 or visit www.novotus.com.
